“This book is a ‘one day read’ because it is so good you can't put it down!” - ViNel

“This was a page turner for me! Mainly because each character was someone I felt like I knew or experienced in my own life. I love that the book truly reflects the randomness that is found in dating...” - Syreeta

“*Lies* is a fun read with a well-written/well-developed story line not to mention characters.” - Washington
